■ Why Twilio

† Multi-agent systems built end to end. CreateSuite: autonomous agents with persistence, inter-agent messaging, and six model providers running in one orchestration layer.

† Platform and developer-tooling product work. Obsess and internal platform work: built developer-facing systems, APIs, and product surfaces that other teams depended on.

† 8+ yrs PM, ideally platform/AI. I bring experience building AI agents and developer platforms (Obsess) that enterprises adopt; tie to conversational AI.
