▸ Tailored for Anthropic – Forward Deployed Engineer, Applied AI

A forward-deployed engineer who embeds with enterprises, builds the agents, and feeds patterns back to product. I have done exactly this: replacing critical systems at billions-scale, and building my own multi-agent orchestration platform from scratch.

■ Why Anthropic

† I build production agents, not prototypes. CreateSuite is my own multi-agent orchestration system – autonomous agents with git-backed persistence, an inter-agent mailbox, and 6 model providers (Claude, OpenAI, Gemini, MiniMax, Copilot, Z.ai).

† Enterprise deployment is my day job. At Law Business Research I ran white-glove SSO (SAML/OIDC) onboarding for 150+ AmLaw 200 firms – the exact customer-facing, high-trust deployment motion an FDE lives in.

† I prototype in TypeScript and Python and ship. Hands-on architect PM: launched an AI API execution workspace with oRPC, type safety, and live introspection that improved model accuracy across 3 internal APIs.
