■ Why Twilio

† Multi-agent systems built end to end. CreateSuite: au-
tonomous agents with persistence, inter-agent messaging,
and six model providers running in one orchestration
layer.

† Platform and developer-tooling product work. Obsess and
internal platform work: built developer-facing systems,
APIs, and product surfaces that other teams depended on.

† 8+ yrs PM, ideally platform/AI. I bring experience
building AI agents and developer platforms (Obsess) that
enterprises adopt; tie to conversational AI.
