DECAGON · SENIOR AGENT PRODUCT MANAGER

Hiring Team at Decagon

I am applying for the Senior Agent Product Manager role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

WHY I AM A STRONG FIT:

- Decagon is building Personalized, autonomous customer-support AI agents for enterprises and consumers — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- hands-on AI-agent PM experience: agent reliability, tool-use, guardrails and measurable resolution outcomes: Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Ive shipped the work this role calls for — including: Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

A FEW SHIPPED REFERENCE POINTS:
