COVER LETTER · ASANA · SENIOR PRODUCT MANAGER, AGENT CONTEXT · NEW YORK, NY

Hiring Team at Asana

I am applying for the Senior Product Manager, Agent Context role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Integrated MCP servers and agent skills into production research tooling.

WHY I AM A STRONG FIT:

- Asana is building AI Studio (no-code AI workflow builder), AI Teammates (collaborative agents using Work Graph... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- I build the context/grounding layer for AI agents — connect document-AI retrieval and agent experience directly to Work Graph context: Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Ive shipped the work this role calls for — including: Shipped RAG-powered semantic search over an editorial corpus, deployed at alexwelcing.com.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-tkd8w0

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
