COVER LETTER · BAIN & COMPANY · LEAD LLM PLATFORM TECHNICAL PRODUCT MANAGER · REMOTE

Hiring Team at Bain & Company

I am applying for the Lead LLM Platform Technical Product Manager role (Remote).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Built NextDocsSearch with OpenAI embeddings served from pgvector in Supabase.

WHY I AM A STRONG FIT:

- Bain & Company is building AI agents, document AI, identity, platform PM, enterprise SaaS, developer tools — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- breadth across AI/agents, platforms, security and document-AI as proof Alex can advise on diverse product problems: Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.
- Ive shipped the work this role calls for — including: Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1hjwgxg

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
