COVER LETTER · BLOOMBERG · TECHNICAL PRODUCT MANAGER - AI PLATFORMS - GENAI DEVELOPER PLATFORM - CTO

Hiring Team at Bloomberg

I am applying for the Technical Product Manager - AI Platforms - GenAI Developer Platform - CTO Office role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Built NextDocsSearch with OpenAI embeddings served from pgvector in Supabase.

WHY I AM A STRONG FIT:

- Bloomberg is building BloombergGPT/finance LLMs, GenAI developer platform, AI-ready data, document & content extraction... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Lead resume with 'built the AI/agent developer platform at Obsess' — internal LLM tooling and adoption among engineers: Designed and shipped a type-safe workspace for executing AI APIs with live introspection across three internal APIs.
- I've shipped the work this role calls for — including: Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-nz68go

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
