COVER LETTER · BLOOMBERG · TECHNICAL PRODUCT MANAGER - AI READY DATA · NEW YORK, NY

Hiring Team at Bloomberg

I am applying for the Technical Product Manager - AI Ready Data role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.

WHY I AM A STRONG FIT:

- Bloomberg is building BloombergGPT/finance LLMs, GenAI developer platform, AI-ready data, document & content extraction... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Manatt document-AI work as making enterprise data AI-ready for RAG and agent pipelines.: Built NextDocsSearch with OpenAI embeddings served from pgvector in Supabase.
- Ive shipped the work this role calls for — including: Shipped document understanding pipelines that turned unstructured legal text into structured graph data.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-13o6yg

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
