COVER LETTER · BLOOMBERG · TECHNICAL PRODUCT MANAGER - CONTENT PLATFORM · NEW YORK, NY

Hiring Team at Bloomberg

I am applying for the Technical Product Manager - Content Platform role (New York, NY).

My pitch for this role is simple: I'm a product-builder who has shipped document AI end-to-end. Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.

WHY I AM A STRONG FIT:

- Bloomberg is building BloombergGPT/finance LLMs, GenAI developer platform, AI-ready data, document & content extraction... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- document-AI/content-extraction experience as building structured content platforms feeding AI systems: Shipped document understanding pipelines that turned unstructured legal text into structured graph data.
- I've shipped the work this role calls for — including: Built contextual, data-informed content systems that drove cross-platform adoption at Arkadium.

A FEW SHIPPED REFERENCE POINTS:

- Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.
- Devised AI-based document scanning for legal publication — automated image selection, sharpened knowledge-graph precision, eliminated manual error.
- Built AI-based document scanning and led IAM for a research platform serving 1,000+ clients at Manatt.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1twhrmq

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
