[COVER LETTER](#) · [DATADOG](#) · [PRODUCT MANAGER II, AI & DATA SECURITY](#) · [NEW YORK, NY](#)

Hiring Team at Datadog

I am applying for the Product Manager II, AI & Data Security role (New York, NY).

My pitch for this role is simple: Few PMs have owned enterprise identity at this scale. At LBR (Law Business Research) Alex re-platformed the identity & subscription system to handle billions of requests/mo across 10+ products, and ran SSO/SAML/OIDC onboarding for 150+ AmLaw 200 firms; at Manatt he led IAM for a research platform serving 1,000+ clients -- a strong match for a security-and-access mandate like this.

WHY I AM A STRONG FIT:

- Materials-science AI platform built end to end: Lupine.Live: MLIP benchmarks, phase-change trajectory simulation, and a TypeScript/WebGL browser for real-time molecular visualization. Research pipelines in Python.
- Enterprise deployment and trust: Law Business Research: 150+ enterprise SSO integrations and identity systems serving high-trust legal customers at scale.
- 3-5 yrs PM: I bring experience Anchor the pitch on identity-and-access depth: LBRs SSO/SAML/OIDC rollout and Manatt IAM for 1,000+ clients. Pitch him as an engineering-fluent PM who can take LLM/Agent Observability from concept to shipped product.

A FEW SHIPPED REFERENCE POINTS:

- Materials-science AI platform built end to end
- Enterprise deployment and trust
- Document and knowledge-work AI

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1mdj1ll

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
