COVER LETTER · DBT LABS · STAFF PRODUCT MANAGER- DEVELOPER EXPERIENCE · UNITED STATES

Hiring Team at dbt Labs

I am applying for the Staff Product Manager- Developer Experience role (United States).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Integrated MCP servers and agent skills into production research tooling.

WHY I AM A STRONG FIT:

- dbt Labs is building AI-ready data, dbt Fusion engine (Rust rewrite), developer tooling and the dbt MCP/AI integrations... — my relevant shipped work: Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- tools PM experience at Obsess and platform PM at Arkadium: Led the 3D experience platform at Obsess — avatars, analytics, SOC 2 — shipping for global enterprise brands.
- Ive shipped the work this role calls for — including: Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1pmlkyp

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
