Hiring Team at Dow Jones

I am applying for the Principal Product Manager - Subscriber Activation & Retention role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.

WHY I AM A STRONG FIT:

- Dow Jones is building AI content-licensing marketplace (Factiva, ~5,000 publishers), \$250M OpenAI deal, AI as... — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.
- Lead directly with subscription growth, activation, and retention results — quantify churn/engagement wins; this is one of the cleanest fits in the batch: Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- Ive shipped the work this role calls for — including: Re-platformed the identity & subscription system at LBR, unifying access across 10+ products.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1bqrtdl

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
