[COVER LETTER](#) · [DRAFTWISE](#) · [SENIOR FRONT END ENGINEER](#) · [REMOTE \(US\)](#)

Hiring Team at DraftWise

I am applying for the Senior Front End Engineer role (Remote (US)).

My pitch for this role is simple: A senior frontend engineer who has shipped legal software for years and lives in React, TypeScript, and modern frontend architecture.

WHY I AM A STRONG FIT:

- Frontend is my craft: TypeScript, React, Next.js, React Three Fiber, Tailwind — alexwelcing.com is a 3D content platform I built (Next.js 16 + R3F + Cannon physics + pgvector).
- Legal domain fluency: Five years at Manatt building legal publishing and document AI; I understand the contract / drafting workflow DraftWise serves.
- I rebuild client apps that scale: Rebuilt client settings & analytics applications from scratch at LBR, cutting configuration time 60%.

A FEW SHIPPED REFERENCE POINTS:

- 3D + semantic-search web app shipped (Next.js/R3F)
- 5 years building legal software
- 348 public repos · 12 years shipping

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-nnhxo6

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
