Hiring Team at Duolingo

I am applying for the Senior Product Manager, Notifications role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Built the type-safe AI API workspace with self-improving usage accuracy at LBR.

WHY I AM A STRONG FIT:

- Duolingo is building GPT-powered features (Duolingo Max, Video Call/Lily AI tutor), AI-generated content, 'AI-first'... — my relevant shipped work: Lupine Science — Alex's materials-science AI platform: shipped MLIP benchmarks, phase-change trajectory simulation, and a TypeScript/WebGL browser for real-time molecular visualization. Combines research-grade physics with a shipping product surface.
- retention and engagement growth wins: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.
- I've shipped the work this role calls for — including: Built contextual, data-informed content systems that drove cross-platform adoption at Arkadium.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
