## Hiring Team at ECI

I am applying for the Senior Product Manager role (New York, NY).

My pitch for this role is simple: I'm a technical PM with 12+ years across AI, identity, and platforms. I've shipped AI, platform, and identity products end-to-end across multiple regulated and consumer companies.

### WHY I AM A STRONG FIT:

- ECI is building Embedding AI/automation into vertical ERP workflows (e.g., quoting, e-commerce, business... — my relevant shipped work: Lupine Science — Alex's materials-science AI platform: shipped MLIP benchmarks, phase-change trajectory simulation, and a TypeScript/WebGL browser for real-time molecular visualization. Combines research-grade physics with a shipping product surface.
- tie AI experience to ERP modernization: Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.
- I've shipped the work this role calls for — including: Built NextDocsSearch with OpenAI embeddings served from pgvector in Supabase.

### A FEW SHIPPED REFERENCE POINTS:

- Private (PE-owned vertical SaaS)
