Hiring Team at Fortune

I am applying for the Principal Product Manager, Platform role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.

WHY I AM A STRONG FIT:

- Fortune is building Limited/early — AI-powered audio articles (Trinity Audio); AI-driven content tooling — and my shipped work maps to it.: See [experience.ts](#) (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- Arkadium media-platform + subscription growth experience — near-identical context (digital media platform monetization): Built contextual, data-informed content systems that drove cross-platform adoption at Arkadium.
- Ive shipped the work this role calls for — including: Shipped High Era as a single-operator production platform on GCP — content generation, workflow engine, analytics.

A FEW SHIPPED REFERENCE POINTS:

- Private media company (mature)

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
