COVER LETTER · GUSTO · PRINCIPAL PRODUCT MANAGER, AGENTIC BENEFITS OPERATIONS · NEW YORK, NY

Hiring Team at Gusto

I am applying for the Principal Product Manager, Agentic Benefits Operations role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Integrated MCP servers and agent skills into production research tooling.

WHY I AM A STRONG FIT:

- Gusto is building AI generates ~50% of new code and handles ~50% of support; payroll runnable inside... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- I ship production AI agents for ops-heavy, document-laden workflows and translating that into measurable automation/cost wins: Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Ive shipped the work this role calls for — including: Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-169mqgy

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
