Hiring Team at Harvey

I am applying for the Founding Forward Deployed Engineer role (New York City).

My pitch for this role is simple: My legal AI background is not adjacent to Harvey; it is the foundation of why I can help ship agentic legal workflows that teams will trust.

WHY I AM A STRONG FIT:

- I have shipped legal document AI: At Manatt I devised AI-based document scanning for legal publication — automated image selection, sharpened knowledge-graph precision, eliminated manual error.
- I know the AmLaw customer intimately: Onboarded 150+ AmLaw 200 firms onto enterprise SSO at LBR — I know how legal enterprises buy, deploy, and trust software.
- Prototype-to-production is my pattern: Took a client publishing SaaS from beta to millions in ARR; rebuilt client apps cutting configuration time 60%.

A FEW SHIPPED REFERENCE POINTS:

- Legal document AI shipped at a top-50 firm
- IAM for a research platform serving top-1000 clients
- 150+ AmLaw 200 enterprise relationships

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1qefkga

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
