COVER LETTER · HEADWAY · STAFF PRODUCT MANAGER, AI PLATFORM · NEW YORK, UNITED STATES

Hiring Team at Headway

I am applying for the Staff Product Manager, AI Platform role (New York, United States).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

WHY I AM A STRONG FIT:

- Headway is building Human-AI collaboration to streamline provider workflows; acqui-hired AI talent from Tezi — and my shipped work maps to it.: See [experience.ts](#) (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- Obsess (AI agents/devtools) + Arkadium (platform PM): 'I build the AI platform layer that lets the whole org ship AI features.' Address healthcare with Manatt regulated-domain credibility: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- I've shipped the work this role calls for — including: Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.
