Hiring Team at Incedo Inc.

I am applying for the Senior Product Owner - Wealth Management role (New York, NY).

My pitch for this role is simple: I'm a technical PM with 12+ years across AI, identity, and platforms. I've shipped AI, platform, and identity products end-to-end across multiple regulated and consumer companies.

WHY I AM A STRONG FIT:

- Incedo Inc. is building Incedo Lighthouse AI platform; AI Digital Consultant for Wealth Management (diagnose, forecast,... — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- applied-AI product delivery; bridge document-AI/data work to wealth-management use cases and emphasize stakeholder management: Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.
- Ive shipped the work this role calls for — including: Shipped document understanding pipelines that turned unstructured legal text into structured graph data.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
