COVER LETTER · INTUIT · STAFF PRODUCT MANAGER, PARTNER PLATFORM · NEW YORK, NY

Hiring Team at Intuit

I am applying for the Staff Product Manager, Partner Platform role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Built NextDocsSearch with OpenAI embeddings served from pgvector in Supabase.

WHY I AM A STRONG FIT:

- Intuit is building GenOS platform, AI agents ('Intuit Assist'), and ML across tax/accounting; major bet on agentic AI... — my relevant shipped work: Lupine Science — Alex's materials-science AI platform: shipped MLIP benchmarks, phase-change trajectory simulation, and a TypeScript/WebGL browser for real-time molecular visualization. Combines research-grade physics with a shipping product surface.
- platform/devtools PM — building APIs and developer/partner experiences that grew an ecosystem: Led the 3D experience platform at Obsess — avatars, analytics, SOC 2 — shipping for global enterprise brands.
- I've shipped the work this role calls for — including: Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1rjftk2

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
