Hiring Team at JPMorganChase

I am applying for the Vice President, Product Manager - CRM & Advisor Platform role (New York, NY).

My pitch for this role is simple: I'm a platform PM who has shipped developer tools at scale. Re-platformed the identity & subscription system at LBR, unifying access across 10+ products.

WHY I AM A STRONG FIT:

- JPMorganChase is building Firmwide AI/ML at scale: LLM Suite, fraud/risk ML platforms, applied AI across CIB, payments,... — my relevant shipped work: Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- AI-augmented productivity tooling experience (agents/devtools) as a lever to modernize the advisor platform with copilots and automation: Drove cross-platform adoption of contextual, data-informed content systems at Arkadium.
- I've shipped the work this role calls for — including: Set access-control policy across the research platform during its transition from on-prem to multi-tenant cloud.

A FEW SHIPPED REFERENCE POINTS:

- Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- Drove cross-platform adoption of contextual, data-informed content systems at Arkadium.
- Re-platformed the identity & subscription system at LBR, unifying access across 10+ products.
