COVER LETTER · JPMORGANCHASE · VICE PRESIDENT, PRODUCT MANAGER — IDENTITY · NEW YORK, NY

Hiring Team at JPMorganChase

I am applying for the Vice President, Product Manager — Identity role (New York, NY).

My pitch for this role is simple: I'm a technical PM who has rebuilt enterprise identity at scale. Shipped a type-safe AI API workspace (oRPC) with self-improving accuracy.

WHY I AM A STRONG FIT:

- JPMorganChase is building Firmwide AI/ML at scale: LLM Suite, fraud/risk ML platforms, applied AI across CIB, payments,... — my relevant shipped work: Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- Lead unapologetically with LBR identity & security PM ownership (authN/authZ, identity lifecycle) as the centerpiece — this is the closest-fit role in the batch: Unified access models across legacy and new product surfaces, unlocking new revenue.
- Ive shipped the work this role calls for — including: Set access-control policy across the research platform during its transition from on-prem to multi-tenant cloud.

A FEW SHIPPED REFERENCE POINTS:

- Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- Unified access models across legacy and new product surfaces, unlocking new revenue.
- Shipped a type-safe AI API workspace (oRPC) with self-improving accuracy.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-jqhlgd

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
