Hiring Team at Justworks

I am applying for the Senior Product Manager, Partnerships role (New York, NY).

My pitch for this role is simple: I'm a platform PM who has shipped developer tools at scale. Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

WHY I AM A STRONG FIT:

- Justworks is building AI/automation in internal operations and product (Product Ops AI & Systems role); partner and... — and my shipped work maps to it.: See [experience.ts](#) (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- developer/API and platform: Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- Ive shipped the work this role calls for — including: Drove cross-platform adoption of contextual, data-informed content systems at Arkadium.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1p3ogn2

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
