Hiring Team at Microsoft AI

I am applying for the Principal Product Manager, Content Monetization role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

WHY I AM A STRONG FIT:

- Microsoft AI is building Copilot consumer app and M365 Copilot, in-house MAI models (MAI-Voice-1, MAI-1, MAI-Image-1),... — my relevant shipped work: Lupine Science — Alex's materials-science AI platform: shipped MLIP benchmarks, phase-change trajectory simulation, and a TypeScript/WebGL browser for real-time molecular visualization. Combines research-grade physics with a shipping product surface.
- subscription/monetization growth and AI: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.
- I've shipped the work this role calls for — including: Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.

A FEW SHIPPED REFERENCE POINTS:

- Public company

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
