Hiring Team at NVIDIA

I am applying for the Product Manager - Open Models role (California, United States).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

WHY I AM A STRONG FIT:

- NVIDIA is building Full AI stack: GPUs, CUDA, NIM microservices, Nemotron open models, AI infrastructure software, and... — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- tools/AI PM track record: Integrated MCP servers and agent skills into production research tooling.
- Ive shipped the work this role calls for — including: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
