Hiring Team at PatientNow

I am applying for the Principal Product Manager role (Brooklyn, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Shipped High Era as a single-operator production platform on GCP — content generation, workflow engine, analytics.

WHY I AM A STRONG FIT:

- PatientNow is building Patient acquisition/engagement automation, CRM; expanding via integrations — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.
- document-AI and identity/security (LBR) as directly relevant to HIPAA-grade patient-record and engagement products: Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.
- Ive shipped the work this role calls for — including: Built contextual, data-informed content systems that drove cross-platform adoption at Arkadium.

A FEW SHIPPED REFERENCE POINTS:

- Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.
- Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-mnyocf

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
