COVER LETTER · ROBINHOOD · SENIOR PRODUCT MANAGER, CRYPTO TRADING · NEW YORK, NY

Hiring Team at Robinhood

I am applying for the Senior Product Manager, Crypto Trading role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.

WHY I AM A STRONG FIT:

- Robinhood is building Crypto trading/custody (>\$51B AUC), tokenized stocks/own blockchain (Arbitrum L2), AI-assisted... — and my shipped work maps to it.: See [experience.ts](#) (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- consumer growth/subscription and platform PM credibility; would need to demonstrate crypto domain interest/learning: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.
- Ive shipped the work this role calls for — including: Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.

A FEW SHIPPED REFERENCE POINTS:

- Public company

Packet (résumé, cover letter, and a 30-second role pitch): [welc.ing/r/pkt-d1mewo](#)

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
