COVER LETTER · SECURITYSCORECARD · SENIOR PRODUCT MANAGER, AI · NEW YORK CITY METROPOLITAN AREA

Hiring Team at SecurityScorecard

I am applying for the Senior Product Manager, AI role (New York City Metropolitan Area).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.

WHY I AM A STRONG FIT:

- SecurityScorecard is building Agentic AI workflows for risk detection/response; LLM pipelines, retrieval, eval frameworks — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- hands-on agentic AI shipping at Obsess + security credibility from LBR: Built NextDocsSearch with OpenAI embeddings served from pgvector in Supabase.
- Ive shipped the work this role calls for — including: Worked hands-on with Claude, OpenAI, Gemini, and Copilot as integration partners, not just API consumers.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-9is3cv

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
