Hiring Team at Squarespace

I am applying for the Product Engagement Lead role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Built the type-safe AI API workspace with self-improving usage accuracy at LBR.

WHY I AM A STRONG FIT:

- Squarespace is building Generative-AI website/content creation woven through the builder; AI design, copy, and onboarding... — and my shipped work maps to it.: See [experience.ts](#) (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- subscription growth, activation, and retention wins — this role is a near-perfect fit for his growth track record: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.
- Ive shipped the work this role calls for — including: Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.

A FEW SHIPPED REFERENCE POINTS:

- Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.
- Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
