## Hiring Team at Steneral Consulting

I am applying for the AI Product Manager -W2 only role (Jersey City, NJ).

My pitch for this role is simple: I'm a platform PM who has shipped developer tools at scale. Drove cross-platform adoption of contextual, data-informed content systems at Arkadium.

### WHY I AM A STRONG FIT:

- Steneral Consulting is building None proprietary; places AI/PM contractors at client companies — and my shipped work maps to it.: See [experience.ts](#) (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- Only pursue to learn the end client; if engaging, lead with breadth of AI-PM delivery to justify top-of-band rate and push to identify the actual employer: Operated as the only PM in a build that shipped a full marketing-automation OS to production on Google Cloud.
- Ive shipped the work this role calls for — including: Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
