COVER LETTER · THE D. E. SHAW GROUP · AI PRODUCT ENGINEER - PRIVATE EQUITY PLATFORM · NEW YORK,

Hiring Team at The D. E. Shaw Group

I am applying for the AI Product Engineer - Private Equity Platform role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Worked hands-on with Claude, OpenAI, Gemini, and Copilot as integration partners, not just API consumers.

WHY I AM A STRONG FIT:

- The D. E. Shaw Group is building Applied AI/ML for research and internal platforms; building AI-powered tooling for private-equity... — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- I ship AI agents/document-AI for knowledge-worker workflows; demonstrate technical hands-on comfort: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Ive shipped the work this role calls for — including: Built NextDocsSearch with OpenAI embeddings served from pgvector in Supabase.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1yrqei4

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
