Hiring Team at Uber

I am applying for the Lead Product Manager, Consumer Affordability role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

WHY I AM A STRONG FIT:

- Uber is building ML for pricing/matching/ETA, AV (autonomous vehicle) integrations and partnerships, merchant/API... — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- subscription and user-growth wins (Arkadium); show fluency in experimentation and monetization to own consumer affordability levers: Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.
- Ive shipped the work this role calls for — including: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-ekuu4q

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
