COVER LETTER · UBER · SENIOR PRODUCT MANAGER - AUTONOMOUS DELIVERY · NEW YORK, NY

Hiring Team at Uber

I am applying for the Senior Product Manager - Autonomous Delivery role (New York, NY).

My pitch for this role is simple: I'm a platform PM who has shipped developer tools at scale.
Re-platformed the identity & subscription system at LBR, unifying access across 10+ products.

WHY I AM A STRONG FIT:

- Uber is building ML for pricing/matching/ETA, AV (autonomous vehicle) integrations and partnerships, merchant/API... — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- systems PM experience: Lupine Science — Alex's materials-science AI platform: shipped MLIP benchmarks, phase-change trajectory simulation, and a TypeScript/WebGL browser for real-time molecular visualization. Combines research-grade physics with a shipping product surface.
- I've shipped the work this role calls for — including: Drove cross-platform adoption of contextual, data-informed content systems at Arkadium.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-bjcg6c

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
