COVER LETTER · WEIGHTS & BIASES · STAFF PRODUCT MANAGER, TRAINING INFRASTRUCTURE - WEIGHTS & BIASES

Hiring Team at Weights & Biases

I am applying for the Staff Product Manager, Training Infrastructure - Weights & Biases role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.

WHY I AM A STRONG FIT:

- Weights & Biases is building Core MLOps/LLMOps tooling: experiment tracking, training infra, model eval (Weave), now paired with... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- agents/devtools PM (Obsess) and platform work: Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.
- Ive shipped the work this role calls for — including: Integrated MCP servers and agent skills into production research tooling.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1nblvy8

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
