COVER LETTER · THE D. E. SHAW GROUP · SENIOR PRODUCT MANAGER - APPLIED AI · NEW YORK, NY

Hiring Team at The D. E. Shaw Group

I am applying for the Senior Product Manager - Applied AI role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Integrated MCP servers and agent skills into production research tooling.

WHY I AM A STRONG FIT:

- The D. E. Shaw Group is building Applied AI/ML for research and internal platforms; building AI-powered tooling for private-equity... — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- shipped AI agents and document-AI that augmented expert knowledge workers (Obsess + Manatt): Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Ive shipped the work this role calls for — including: Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
