## Hiring Team at Innovid

I am applying for the Senior Product Manager, Identity role (New York City Metropolitan Area).

My pitch for this role is simple: I'm a technical PM who has rebuilt enterprise identity at scale. Shipped a type-safe AI API workspace (oRPC) with self-improving accuracy.

### WHY I AM A STRONG FIT:

- Innovid is building AI/ML for ad creative optimization, measurement, and identity resolution across screens; always-on... — my relevant shipped work: Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- identity-product PM experience (LBR) — frame identity-resolution as a data+privacy problem he already thinks in, plus platform-PM rigor: Unified access models across legacy and new product surfaces, unlocking new revenue.
- Ive shipped the work this role calls for — including: Set access-control policy across the research platform during its transition from on-prem to multi-tenant cloud.

Packet (résumé, cover letter, and a 30-second role pitch): [welc.ing/r/pkt-14y7b8m](https://welc.ing/r/pkt-14y7b8m)

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,  
Alex Welcing
