Hiring Team at Google

I am applying for the Group Product Manager, Google Images, Search and Feed role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.

WHY I AM A STRONG FIT:

- Google is building Gemini models, Vertex AI / Cloud AI agent platforms, Google Labs generative media (Imagen, Veo),... — my relevant shipped work: Lupine Science — Alex's materials-science AI platform: shipped MLIP benchmarks, phase-change trajectory simulation, and a TypeScript/WebGL browser for real-time molecular visualization. Combines research-grade physics with a shipping product surface.
- AI PM who can modernize a large consumer discovery surface: Unified access models across legacy and new product surfaces, unlocking new revenue.
- I've shipped the work this role calls for — including: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.

A FEW SHIPPED REFERENCE POINTS:

- Public company

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-15hij99

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
