Hiring Team at BNY

I am applying for the Director, POM Technical Product Management role (New York, NY).

My pitch for this role is simple: I'm a platform PM who has shipped developer tools at scale. Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.

WHY I AM A STRONG FIT:

- BNY is building 'Eliza' internal agent-building platform (125+ live use cases, 134 'digital employees'); OpenAI and... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- a platform/devtools PM who has built developer-facing infrastructure with security baked in: Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.
- I've shipped the work this role calls for — including: Unified access models across legacy and new product surfaces, unlocking new revenue.

A FEW SHIPPED REFERENCE POINTS:

- Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- Drove cross-platform adoption of contextual, data-informed content systems at Arkadium.
- Re-platformed the identity & subscription system at LBR, unifying access across 10+ products.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-15lti0k

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
