Hiring Team at Mesh

I am applying for the Senior Product Manager, Core Infrastructure role (United States).

My pitch for this role is simple: I'm a platform PM who has shipped developer tools at scale.
Re-platformed the identity & subscription system at LBR, unifying access across 10+ products.

WHY I AM A STRONG FIT:

- Mesh is building Limited direct AI; core is payments/crypto infrastructure — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- platform/infrastructure PM — building reliable, developer-friendly platform services and integrations at scale: Drove cross-platform adoption of contextual, data-informed content systems at Arkadium.
- Ive shipped the work this role calls for — including: Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1ao3nrx

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
