Hiring Team at US Mobile

I am applying for the Principal Product Manager, Devices & eCommerce Marketplace role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

WHY I AM A STRONG FIT:

- US Mobile is building Consumer telecom platform; AI in support/ops (not core); strong product/eng culture — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, cutting go-to-market time by 25%.
- subscription growth + platform-PM wins and experimentation rigor; acknowledge device supply-chain as the learn, emphasize 0-to-1 marketplace product ownership: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.
- Ive shipped the work this role calls for — including: Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1bjz1iq

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
