COVER LETTER · PINECONE · STAFF/PRINCIPAL PRODUCT MANAGER, DATABASE · UNITED STATES

Hiring Team at Pinecone

I am applying for the Staff/Principal Product Manager, Database role (United States).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.

WHY I AM A STRONG FIT:

- Pinecone is building Core AI infrastructure: vector search/database powering RAG, semantic search, and AI-agent memory;... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- AI-application and developer-platform PM experience (agents, RAG-adjacent), positioning as a PM who understands what AI builders need from a vector DB; acknowledge DB-engine depth as the focus area: Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.
- I've shipped the work this role calls for — including: Built NextDocsSearch with OpenAI embeddings served from pgvector in Supabase.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1dfzgq4

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
