Hiring Team at Zeta Global

I am applying for the Senior Product Manager - Addressability role (New York, NY).

My pitch for this role is simple: I'm a technical PM who has rebuilt enterprise identity at scale. Unified access models across legacy and new product surfaces, unlocking new revenue.

WHY I AM A STRONG FIT:

- Zeta Global is building AI Marketing Cloud using trillions of consumer signals for acquisition, growth, and retention;... — my relevant shipped work: Pioneered NLP-driven AI content partnerships at Arkadium, driving \$1M+ projected annual revenue contribution.
- for identity — lead with identity & security PM (LBR), reframed as identity resolution/addressability in a privacy-first world: Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- Ive shipped the work this role calls for — including: Set access-control policy across the research platform during its transition from on-prem to multi-tenant cloud.

A FEW SHIPPED REFERENCE POINTS:

- Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- Unified access models across legacy and new product surfaces, unlocking new revenue.
- Shipped a type-safe AI API workspace (oRPC) with self-improving accuracy.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1f3xeaj

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
