COVER LETTER · TALKDESK · FORWARD DEPLOYED AI PRODUCT MANAGER · UNITED STATES

Hiring Team at Talkdesk

I am applying for the Forward Deployed AI Product Manager role (United States).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

WHY I AM A STRONG FIT:

- Talkdesk is building AI for customer experience: AI agents/copilots, automation, and analytics across the contact... — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- I ship AI/agents and deploying them with users — frame as the rare PM who builds AI features and makes them succeed in production with enterprise customers: Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.
- I've shipped the work this role calls for — including: Built NextDocsSearch with OpenAI embeddings served from pgvector in Supabase.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1ia2bf2

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
