Hiring Team at Roku

I am applying for the Senior Product Manager, Recommendations role (New York, NY).

My pitch for this role is simple: I'm a product PM who has driven subscription growth at scale. Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.

WHY I AM A STRONG FIT:

- AI product work (Obsess) plus user: Built contextual, data-informed content systems that drove cross-platform adoption at Arkadium.
- Ive shipped the work this role calls for — including: Shipped High Era as a single-operator production platform on GCP — content generation, workflow engine, analytics.

A FEW SHIPPED REFERENCE POINTS:

- Public company

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
