Hiring Team at Applecart

I am applying for the Principal Product Manager, Measurement role (New York, NY).

My pitch for this role is simple: I'm a technical PM with 12+ years across AI, identity, and platforms. I've shipped AI, platform, and identity products end-to-end across multiple regulated and consumer companies.

WHY I AM A STRONG FIT:

- Applecart is building Proprietary social-graph data science and measurement; relationship mapping and decision-maker... — and my shipped work maps to it.: See [experience.ts](#) (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- product and platform PM experience and AI/analytics fluency: Took a legal-publishing SaaS from beta to millions in ARR with enterprise-grade data governance at Manatt.
- I've shipped the work this role calls for — including: Shipped document understanding pipelines that turned unstructured legal text into structured graph data.

A FEW SHIPPED REFERENCE POINTS:

- Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- Unified access models across legacy and new product surfaces, unlocking new revenue.
- Shipped a type-safe AI API workspace (oRPC) with self-improving accuracy.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1knkc5l

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,

Alex Welcing
