Hiring Team at Gusto

I am applying for the Principal Product Manager, Reporting role (New York, NY).

My pitch for this role is simple: I'm a platform PM who has shipped developer tools at scale. Set the multi-year SaaS platform strategy for enterprise brand deployments at Obsess.

WHY I AM A STRONG FIT:

- Gusto is building AI generates ~50% of new code and handles ~50% of support; payroll runnable inside... — my relevant shipped work: Lupine Science — Alex's materials-science AI platform: shipped MLIP benchmarks, phase-change trajectory simulation, and a TypeScript/WebGL browser for real-time molecular visualization. Combines research-grade physics with a shipping product surface.
- a platform PM who turns messy structured/unstructured data into self-serve, AI-assisted insight products: Drove cross-platform adoption of contextual, data-informed content systems at Arkadium.
- I've shipped the work this role calls for — including: Re-platformed the identity & subscription system at LBR, unifying access across 10+ products.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1ln43s1

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
