COVER LETTER · FAIRE · STAFF PRODUCT MANAGER, SEARCH ALGORITHMS · NEW YORK, NY

Hiring Team at Faire

I am applying for the Staff Product Manager, Search Algorithms role (New York, NY).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Shipped RAG-powered semantic search over an editorial corpus, deployed at alexwelcing.com.

WHY I AM A STRONG FIT:

- Faire is building AI for discovery, recommendations, merchandising and logistics across the marketplace — and my shipped work maps to it.: See [experience.ts](#) (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- platform PM and AI experience; frame any retrieval/ranking exposure from document-AI (relevance, embeddings) as transferable: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Ive shipped the work this role calls for — including: Built NextDocsSearch with OpenAI embeddings served from pgvector in Supabase.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1n7yrfr

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
