COVER LETTER · SCALED COGNITION · PRODUCT MANAGER · NEW YORK CITY METROPOLITAN AREA

Hiring Team at Scaled Cognition

I am applying for the Product Manager role (New York City Metropolitan Area).

My pitch for this role is simple: I'm a hands-on PM who has shipped production multi-agent systems. Built NextDocsSearch with OpenAI embeddings served from pgvector in Supabase.

WHY I AM A STRONG FIT:

- Scaled Cognition is building Agentic foundation models / agent-native training (core product) — my relevant shipped work: Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- the rare PM who has actually shipped AI-agent + devtool products (Obsess), able to translate APT-1s research edge into developer-ready product: Integrated MCP servers and agent skills into production research tooling.
- Ive shipped the work this role calls for — including: Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.

A FEW SHIPPED REFERENCE POINTS:

- Created CreateSuite: an autonomous multi-agent orchestration platform with git-backed persistence across 6 model providers.
- Built an inter-agent mailbox for cross-agent communication, modeled on git-style storage.
- Led the 3D experience platform at Obsess — avatars, analytics, SOC2 — shipping for global enterprise brands.

Packet (résumé, cover letter, and a 30-second role pitch): welc.ing/r/pkt-1qvi4l4

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.

Best regards,
Alex Welcing
