COVER LETTER · JUSTWORKS · PRODUCT OPERATIONS MANAGER, AI & SYSTEMS · NEW YORK, NY

Hiring Team at Justworks

I am applying for the Product Operations Manager, AI & Systems role (New York, NY).

My pitch for this role is simple: I'm a technical PM with 12+ years across AI, identity, and platforms. I've shipped AI, platform, and identity products end-to-end across multiple regulated and consumer companies.

WHY I AM A STRONG FIT:

- Justworks is building AI/automation in internal operations and product (Product Ops AI & Systems role); partner and... — and my shipped work maps to it.: See [experience.ts](#) (LBR/Obsess/Manatt/Arkadium) for adjacent work.
- agent and devtools product work (Obsess) and document: Built contextual, data-informed content systems that drove cross-platform adoption at Arkadium.
- I've shipped the work this role calls for — including: Unified access models across legacy and new product surfaces, unlocking new revenue.

A FEW SHIPPED REFERENCE POINTS:

- Re-platformed the identity & subscription system handling billions of monthly requests across 10+ products.
- Unified access models across legacy and new product surfaces, unlocking new revenue.
- Shipped a type-safe AI API workspace (oRPC) with self-improving accuracy.

I would welcome the opportunity to discuss how I can contribute quickly, operate with high autonomy, and ship for this team.
